Is there any other support you could offer in terms of the school's careers programme						

As a school we are keen to promote University, School Leaver Apprenticeship, Degree Apprenticeship and School Leaver Programmes as recommended Post-18 pathways and we are continuously looking for speakers who may have completed an Apprenticeship or School Leaver Programme or work for an organisation who offer Apprenticeships or School Leaver Programmes to share their experiences with current students. If you can help with either pathway, we would love to hear fom you!

Thank you for completing this form. We really value your support to continue to develop our careers provision. Please email your completed form to; Lorraine Petheram Careers
