Dear Parent/Carer

Re: Masks in schools

Following the Government announcement regarding using of masks in schools we will make it optional for students to wear masks when they are moving to around the school. As you know there will be limited movement as year groups will be taught and have their breaks in bubbles. For students who use masks for movement they should be reusable and placed away in their bags between usage and washed in the evening.

The formal risk assessment agreed by the Governing Body is available on our website [here](#).

If there are any further changes announced by the Government before the return to school we will notify you.

Best wishes

Julia Waters
