

URSULINE HIGH SCHOOL SEND INFORMATION REPORT

September 2021

Including information of provision during pandemic

At Ursuline High School we aim to cater for the individual learning needs of all students in line with the SEND Code of Practice: 0-25 Years (2014).

Students identified with additional needs will be placed on the Learning Support register at one of two levels:

- **Education, Health and Care Plan (EHCP)**
- **Student with Additional Needs-SEND Support**

There are four broad areas of need in the SEND Code of Practice : 0-25 Years (2014) that inform placement:

1. Communication and Interaction
2. Cognition and Learning
3. Social, Emotional and Mental Health
4. Sensory and/or Physical

Identification is guided by the definition of Special Educational Needs in the SEND Code of Practice :0-25 Years (2014)

Special educational needs and disability (SEND)

- A child or young person has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for her.
- A young person has a learning difficulty or disability if she:
 - a) has a significantly greater difficulty in learning than the majority of others of the same age, or
 - b) has a disability which prevents or hinders her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions
 - c) Students who have an Education, Health and Care Plan (EHCP) will receive extra support and guidance in some of their lessons from Teaching Assistants who will work in partnership with the Subject Teacher to help students to access the curriculum. Where appropriate, students may also be withdrawn from some lessons for one-to-one or small group support with, for example, reading and writing skills; numeracy skills; social skills and emotional literacy.
 - d) Students have a SEND profile to inform all subject teachers of their learning needs so that they can differentiate their work accordingly.

URSULINE HIGH SCHOOL SEND INFORMATION REPORT

Additional support is coordinated and monitored by the Special Educational Needs and Disabilities Coordinator (SENDCo).

Students on the Special Educational needs and disabilities register may also need assessment and support from other professionals including those in the Educational Psychology Service (EPS) and Speech and Language Therapy. Once again, these referrals are managed by the Special Educational Needs and Disabilities Co-ordinator.

At the end of year 6, students on the SEND register in their primary schools may be asked to complete a diagnostic test to enable the Ursuline High School to provide targeted support upon their arrival in year 7. This support may include reading intervention to raise their reading age enabling them to access national Curriculum tests, and support with numeracy to embed basic numeracy skills.
